The DNA of Cedral

The ideal low maintenance, rot free alternative to traditional timber weatherboard.

Fibre cement offers both contemporary and flexible design options, and is used by many architects and homeowners to create stunning facades. The simple combination of wood cellulose, sand, synthetic fibres, water and cement make fibre cement one of the most environmentally friendly and comprehensive building products available.

Hard as stone easy as wood.

The material's multi-layered fibre structure supports the cement and other elements, which gives it impressive strength, and means that it can be far thinner than concrete.

Which Cedral style suits you?

CEDRAL LAP

Cedral Lap planks are fitted in a traditional lapped style.

Length	3600mm
Width	190mm
Thickness	10mm
Weight per board	11.2kg

Cedral Lap can be supplied in a range of 21 factory applied colours and 2 woodstain finishes providing an aesthetic option to suit most project requirements.

Cedral Click and Cedral Click Smooth finishes can be supplied in a range of 10 factory applied colours. Other colours within the range, bespoke colours and Cedral Click Smooth are subject to minimum order quantities and extended lead times.

- C** Cedral Click and Cedral Click Smooth standard factory-applied colour range.
 * Not available for Cedral Click or Cedral Click Smooth.
 ** Cedral Click and Cedral Click Smooth may be subject to minimum order quantities and extended lead times.

- † Cedral Board is available in these colours.
 ‡ Cedral Lap in Light Oak and Dark Oak is designed to mimic the appearance of stained natural wood and, as such, a variation in the colour and shade is part of the effect inherent in the material design.

Complete system solution

ALUMINIUM PROFILES

A full range of aluminium profiles is available in complementary colours, for both Cedral Lap and Click, which provides a complete cladding solution. Please refer to the Cedral Fixing Guide for more information on the aluminium profiles.

Profile (sizes in mm)	Cedral Lap	Cedral Click
External corner (symmetric) This universal trim can be used to provide protection on external corners and for stop profile applications.		
External corner/window reveal (asymmetric) Can be used as an external corner or where detailing on a window reveal.		Not required
Internal corner To finish the corner where Cedral meets on an internal corner forming a seal between the trim and the corner.		
External corner junction Used as a corner joining piece. Only available in black. 300mm length.		Not required
Start profile Used to start a cladding run with a lip to cover the first batten.
